Pearson's Higher Education's products offer state-of-the-art accessibility that complies with WCAG 2.0 Level AA and Section 508 standards wherever feasible. In those instances where accessibility features are not yet technically feasible, and in compliance with the directive issued to institutions of higher education by the Assistant Secretary, US Department of Education, Office of Civil Rights on May 26, 2011, our product team will suggest accommodations and modifications that can enable students with disabilities to access the same learning objectives available to all students in an equally effective and equally integrated manner.
