Remediating the Letters of Abelard and Heloise.

In small groups create a short video version of one of the letters of Abelard and Heloise. Your group will be assigned a particular letter. You’ll need to carefully think about: how your video will deal with a major idea or event in the letter; show Abelard or Heloise as a complex figure; choose settings and/or make props; decide on how close to the original text you want your adaptation to be.

On Tuesday 4/25, your group will need to make a detailed plan for your remediation, taking into account the features listed above.

On Thursday 4/27, your group will shoot the video of your remediation. You will have a little bit of time to edit the video, but if you plan to make extensive edits, then your group will need to plan to accomplish that outside of class time.

Excellent videos will have the opportunity to earn double journal credit.

Upload videos to the appropriate discussion forum in Blackboard.

We will have a viewing at the beginning of class on Tuesday May 2.
